## STAN SMITH'S TENNIS CLASS

### HIT EARLY ON THE VOLLEY

At the net, quick reactions are necessary to be able to hit the ball in front of your body. Since there is less time to react at the net than at the baseline, a simple, compact stroke is essential.

©2022 King Features Syndicate, Inc. All rights reserved.

If you are lazy or take your racket back too far, the ball will have a tendency to fly long. Notice how your arm and wrist feel when you hit the ball early. Practice that arm-wrist position so that it becomes a reflex and feels natural.
