By Samantha Weaver

• “It is far better to grasp the Universe as it really is than to persist in delusion, however satisfying and reassuring.” – Carl Sagan

• You might be surprised to learn that some fish can hibernate. During the long, dark winters, the Antarctic cod will burrow under the seabed and stay there for days at a time, cutting its metabolism by two-thirds.

• Despite the fact that famed magician Harry Houdini exposed a number of mediums and psychics as frauds, Sherlock Holmes novelist Sir Arthur Conan Doyle persisted in believing that Houdini himself was a medium.

• Wearing skinny jeans can cause varicose veins.

• In Germany, Rice Krispies don't say “Snap, Crackle, Pop”; they say “Knisper, Knasper, Knusper.”

• Squid are well known for their uncanny ability to camouflage themselves by changing their color to match their background. What's really odd, though, is the fact that the creatures are color-blind.

• The word “conspire” means, literally, “to breathe together,” meaning to be in harmony.

• Even though he was arrested and put on trial numerous times, famed 19th-century outlaw Frank James was never convicted of anything and never went to prison. He died in 1915, at the age of 72, of natural causes.

• Those who study such things say that not all your fingernails grow at the same rate. It seems the nail on your middle finger is a bit of an over-achiever – it grows faster than the nails on your other fingers.

**Thought for the Day:** “Give all power to the many, and they will oppress the few. Give all power to the few, and they will oppress the many. Both therefore ought to have power, that each may defend itself against the other.”  
– Alexander Hamilton
