From W.R. (Dick) Reed II, Publisher

Due to the Coronavirus outbreak and circumstances beyond our control, we will not be publishing the April or May 2020 issues of Lifestyle Magazine in East Volusia County. We started Lifestyle Magazine in 1985, and have not missed an issue in 35 years.

At this time we are hoping to only miss one or two issues, and in the meantime we ask everyone to pray and stay safe. Please follow the guidelines as set forth by President Trump and his advisers.

We hope this is only a temporary situation, and that very soon we will be able to return to the normal flow of things. In this difficult time, we want to remember to thank you, our readers, for your support through the years.

Please check out the two maps enclosed. They are always in the magazine. See the restaurants listed in the Daytona Beach area, and in the Southeast Volusia County area. Let's support these fine restaurants, because they and their employees are going through a tough time right now. Some may have to close permanently. Please order "take out" often, and tip generously. Also, gift cards can be purchased for future use.

Lastly, simply on a daily basis, pray to God our creator and sustainer of the universe, through the powerful name of His Son, Jesus Christ. He only can provide answers, and see us through the crisis such as this. Also, it is truly a time to consider your own spiritual condition. Pick up the Bible, and blow the dust off of it, and start reading God's love letter to us, and may God bless you and the nations of this world.

In His Love,
W.R. (Dick) Reed II
