

Feature Business

Family Owned & Operated Since 1954

Southern Paint is a family owned and operated, full service paint and decorating supply center founded June 21, 1954 by Fred Oehrle. The first store was a renovated home, less than one thousand square feet, located on Seagrave Street in Daytona. Fred believed in the absolute highest quality products along with best in class product knowledge and customer service. Fast forward 68 years later, Fred's granddaughter, Faith and her husband, Joe are carrying on that tradition as 3rd generation operators of the company, with stores in Daytona, Ormond and New Smyrna.

They carry a wide variety of products ranging from paints, stains, roof coatings, and industrial coatings to faux finishing supplies, sign paint, and pool deck and driveway coatings. Don't forget the custom picture framing department that frames anything from fine art to diplomas. Southern Paint offers free local delivery for anyone, and on-site inspections for commercial jobs. They are the only locally owned and operated paint supply store in Volusia County. Faith and Joe take pride in their family's legacy that Fred started, and plan to run the company for another 60 years with the same values and service that has earned them the reputation of being the local paint people.
